Base monthly slip length rates are 11.25 monthly, 10.25 semi-annual, and 9.25 annual so long-term contracts, if honored until their respective ending dates, afford our customers even greater dockage savings. FYI, an annual contract gives you double the savings on a semi-annual contract. All our rates are very competitive in this immediate area.

**However, if it necessary to terminate your contract prematurely, the regular higher monthly and/or applicable semi-annual rate will be charged for the previous applicable months benefitted by the lower annual rate.**
